INDEX

Abderhalden, E. (Gellhorn): Influence of adrenin on heart strips..454
— (Wertheimer): Comparable experiments on the action of heated and non-heated bran and yeast and on the pigeons fed with organs of normal pigeons and polished rice.....793
— — Influence of substances from yeast cells and organs on the rapidity of decomposition of substances by polypeptidases, carbohydrases and esterases 467
— — The mechanism of the so-called Abderhalden reaction 642
Abderhalden's reaction, importance of, in psychiatry.....470
— reaction, mechanism of.....642
Abel (Herman): Two cases of congenital myxedema ameliorated by late opotherapy 871
Abel, E.: cf. Hermann.....885
Abel, J. J. (Rouiller): An exceedingly powerful oxytocic and pressor substance obtained from the posterior lobe of the pituitary gland 843
— — Evolution of the hormone of the infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on blood pressure 631
Abelin, J.: Vegetative nervous system and specific dynamic action..871
Abelous, J. E. (Soula): Active and potential adrenin 97
Abrami, P.: cf. Widal.....818
Achard: Action of pancreaitc extract in diabetes 761
Achard, C.: Syndrome of Basedow's disease 191, 192
— The Basedowian syndrome.....191
— (Binet): Respiratory exchange and basal metabolism in thyroid syndromes 361
— (Ribot and Binet): Researches on adrenalin diabetes..... 98
Acidosis and diabetes.....606
— slight, with diabetes mellitus....786
Acrocephalia-syndactylia: congenital dysendocrinism 337
Acromegaloidism and hypophysis...634
Acromegaly, a case of.....637
— and abnormal growth.....471
— — diabetes insipidus 861
— — infantile gigantism in childhood 176
— — lymphatic leukemia 173
— — mental disturbances 178
— case of 172, 845
— endocrine growth disturbances in 128
— facial expression in.....101
Acromegaly glycosuria in.....172
— in a girl aged 16, with congenital heart disease (aortic stenosis)..860
— normal and abnormal variations of the pituitary fossa in.....174
— of pregnancy 173
— relation of hypophysis to.....356
— — — to pituitary disorders.....176
— skull and face forms in.....473
— without unusual height.....844
Adam, E.: cf. Marchand.....619
Addis, T. (Drury): Effect of other factors than blood urea concentration on rate of urea excretion....735
Addison's disease 752, 755
— — and pigmentary cirrhosis 451
— — case of 321
— — combination of scleroderma with 755
— — diagnosis of 452
— — experimentally produced 92
— — following influenza 322
— — in childhood 92
— — mast cell leukocytosis in.....324
— — report of cases.....92, 735
— — subsequent course of Muirhead's case 94
— — with atypical development; adrenin in 323
— — — severe anemia, treated by suprarenal grafting 91
— — — vasomotor phenomena, particularly of the fingers... 90
— — vitiligo in 752
— type of melanodermia.....450
Adenoma of the adrenal cortex..... 93
Adiposis dolorosa 208
— — sella turcica in.....181
Adiposity, as cause of sterility.....158
Adiposogenital syndrome, a case of.862
— — study of 171
Adiposogenitalis and Parkinson's disease 356
— due to para-infundibular lesion...110
— dystrophia, and retinitis pigmentosa 848
— — differential diagnosis between and retarded eunuchoidism..851
— with normal sella turcica.....856
Adler, A.: Urobilin 761
Adler, E.: cf. Weisz.....474
Adrenal, ablation of, for hyperfunction 94
— action of, in experimental scaldings 755
— adenoma of 748
— and anaphylaxis 451
— — anencephalia 598
— — antigens 740
— — cortical epilepsy 454
— — edema in food deficiency diseases 88
— — hypophysis in brain lesions...353
— — kidney, anomalous arterial supply 89
— — melanodermia 146

Adrenal and morphine hyperglycemia 95
———intoxication 749
——pancreas antagonism 451
——pancreatic diabetes 747
——syphilis 322
—bases, hyperglycemia and glycosuria 87
—biology of 132
—capsule, lesion of in sudden death of new-born 759
——implantation of nerves in.....749
—caseous tuberculosis of.....19, 737
—changes in, after liver extirpation 740
—chronic insufficiency in childhood.. 92
—comparative importance of medullary and cortical parts of....747
—cortex ablation 324
——amyloidosis and adynamia.....449
——adrenin in commercial preparations of 81
——adenoma and the islands of Langerhans 95
———of 93
——decrease in lipoid material in after pancreatectomy 175
——experimental studies in.....750
——fats and lipoids of, in fasting animals 741
——hyperplasia of 603
——in pubertas praecox.....166
——influence of, on growth and reproduction of lower organisms 323
———health and growth of various organisms .. 90
——relation of to thyroid.....757
—depletion in shock, infections, etc. 89
—destruction of, in toad and frog..742
—development of cortical and medullary substances of.....449
———function in medulla of.....454
—discharge, production of, by piqûre 88
——studies on 751
—disturbances in infancy..... 92
—effect of alcohol upon.....145
———deficient diets on.....143
———on thyroid 502
———removal of 910
———on consolidation of fractures 144
———heat production in the frog 358
———total metabolism of the cat 87
———repeated transplantation of, into young doves.....754
———secretion of, on non-fatigued and fatigued skeletal muscle 450
—emergency function of; effect of cold, asphyxia and sensery stimulation on 90
—experimental studies on the adrenin content of.....602
—extirpation, effect of, on nerves.. 97
——effects of excitement on.....147
——in the vomiting of pregnancy..350
———treatment of premature old age 146
——infantile tolerance of.....321
——influence of, on life of spermatozoa 148
—factor in the vasomotor reactions following splanchnic stimulation 323
—function 140
——and fatigue 92
Adrenal, function, brain and.....738
——of dogs deprived of the medulla of 91
—gland, an intervening mechanism in the fixation of fat by.....601
——and cholesteremia 735
———functional diseases 131
———rickets 750
——in action of pilocarpine, physostigmine and strychnine...739
———anesthesia 89
———relation to modern medicine.759
——influence on diabetic hyperglycemia 736
——morphology of 757
——of infant, the involution of the zona reticularis in.....321
——origin of tuberculosis of.....756
——physiology of 321
——relation of, to blood pressure response during cerebral anemia 450
——relation to blood pressure.....754
——therapy in Addison's disease... 94
—grafting in a case of Addison's disease, with severe anemia.... 91
—hemorrhage, case of.....600
—hyperfunction in tuberculosis....335
—hypofunction and gastric ulcer...322
—in a case of diabetes mellitus with pluriglandular lesions 329
———thyroidectomized sheep 643
——acromegaly 128
——experimental anemia 325
———diabetes 95
———insipidus 181
——morphin intoxication 598
——myotoma dystrophia 142
——old age 336
——scleroderma 468
——the insane pellagrins..... 93
——typhus immunity 323
—influence of, on changes in the blood in otosclerosis.....142
———the function of the kidney 875
—insufficiency 595, 602
——and diabetic coma.....121
———vomiting of pregnancy.....739
——as the cause of sudden death..736
——(by removal) in rabbits.....599
——effect of histamine in.....748
———in cats 326
———thyroidectomized rabbits 600
——of rapid termination.....737
——report of three cases following malaria 735
——sudden death in infancy in consequence of 97
——use of hypophysis extract in..168
——with Recklinghausen's disease.467
———tuberculosis of adrenals....137
—jugular anastomosis 97
—lipoids in epilepsy..... 93
———treatment of alopecia..... 93
—malignant disease of.....740
—marked fibrosis of, sudden death in a soldier presenting.....595
—medulla function of dogs deprived of 747
——innervation of 469
—metabolic effect of removal of, in the urethanized cat..... 88
—musculature of the venous walls of, in human beings.....597
—of tuberculous patients.....759
—pancreatic relations 95
—parabiosis with special reference to the transplantation and extirpation of 599

Adrenal, pathology of, in psychosis.453
— physiological value 742
— physiology, lipoids and.....595
— preparations in ovarian disturbances 343
— primary spotaneous tumors of, in mice 602
— — tumor in the liver.....322
— problem of 749
— reaction of, to tumor inoculation.796
— relation between blood cholesterol and 760
— — of female sex glands to.....453
— — — to ovulation 94
— — — weight of, to remainder of the body 325
— — to circulation 746
— right, malignant hypernephroma of 450
— rôle of, in malignant hypernephroma in childhood.....745
— — — in scleroderma 736
— — — — splanchnic stimulation....326
— sensibility to toxins after removal of 742
— substance, use of in organotherapy 807
— support in phenol poisoning..... 90
— supposed relation of to reflex volume changes 453, 757
— syphilis 597
— — of 596
— system in myasthenia gravis.....751
— — relation of carotid gland to...761
— test in the diagnosis and treatment of 882
— -testicular interpenetration in cocks incompletely castrated...837
— the splanchnic as the secretory nerve of 96
— therapy 92
— -thyroid interrelationship, possible clinical significance of....896
— transfusion of venous blood of, after total decapsulation..... 96
— treatment of epileptic spasms by ablation of.....596
— — — pregnancy vomiting 744
— tumor of 451
— — — horses and cattle.....748
— vessels, influence of various conditions on 451
— weight of 750
— — — in experimental rickets.....617
— white line 94
Adrenalectomized rats, susceptibility of, to toxins.....749
Adrenalectomy in the frog.....741
— technic of 742
Adrenalinemia, physiological 460
Adrenin, a case of intoxication by..596
— absorption and action of.....737
— — by digestive tract.....759
— — of by the digestive tract.....105
— action of 753
— — — atrophine on the effects of.. .....99, 109
— — — compared with action of pilocarpine 305
— — — in depancreatized dog.....745
— — — — secretion of sweat.....105
— — — on blood sugar.....601
— — — — frog's liver glycogen.....102
— — — — intestine 108
— — — — muscular excitability 751
— — — — pupil of frog's eye in vivo 741
— — — — striated muscular system.744
— — — — striped muscle 103
— — — — the change during allimentation and fasting.....460
Adrenalin, action of, on the human stomach 100
— — — — — hyperglycemia curve ..751
— — — pneumococcus 753
— — — the thymus 742
— — — upon guinea pigs.....107
— active and potential..... 97
— — — — — apropos note by Abelous and Soula 103
— analgesic power of.....736
Adrenin and calcium salts in the treatment of fractures.....455
— and chronic glaucoma.....736
— — excitability of vomiting center.759
— — extracts of pancreas and liver, effects of, on blood dextrose.601
— — hyperglycemia 101
— — infection 756
— — liver glycogen 103
— — melanophore contraction 746
— — specific dynamic action.....871
— — the blood picture.....745
— — thyroid secretion 518
— — tuberculosis 738
— — urea excretion 735
— antagonism of lymph-gland extract to 358
— — — to histamine 91
— antitoxic action of.....326, 327
— as cause of spontaneous gangrene 451
— as cure for polyneuritis.....327
— blood changes caused by.....757
— — features after the injection of.598
— calcium content of the serum after injection of.....597
— carbohydrate treatment of vomiting of pregnancy 596
— changes of arterial pressure following subcutaneous injection of, and its significance.....755
— -chloroform syncope, digitalen and 736
— chloride, urine acidity after the injection of 597
— circulation after injection of, in the frog 102
— colorimetric method for determination of 104
— content of commercial suprarenal "cortex" preparations 81
— — — the adrenals, experimental studies on 602
— death from, in chloroform anesthesia 455
— determination by sensitization of the Trendelenburg frog preparation 595
— diabetes, researches on..... 98
— diagnostic importance of glycosuria after injection of in pregnancy 598
— discharge, influence of, immune serums upon 758
— — — — vaccines on 757
— does the reaction to, obey Weber's Law? 749
— effect of 470
— — — administration of, after adrenalectomy 91
— — — after paralysis of dilator mechanism by nicotine...458
— — — in a case of abnormal growth 471
— — — — hyperglycemia 602
— — — injection of in hyper and hypothyroidism 193
— — — — — on pulmonary circulation 744
— — — muscular activity on.....596
— — — on adrenal vessels.....451
— — — — blood picture 739

Adrenin, effects of, on blood vessels and pigment cells.....107
——— exercised strips of frogs' digestive tracts 744
——— gastric secretion 794
——— on isolated uterus.....126
——— skeletal muscle at rest and fatigued 103
——— temperature 793
——— the heart of the bullfrog.601
——— involuntary nervous system 745
——— pigment of Fundulus heteroclitus 102
——— production of CO_2 in plants and animals..104
——— temperature of the brain 455
— effects of optical isomers of, on glycemia 736
——— transfusion of carotid blood during splanchnic stimulation 360
—— on muscle cell, permeability...105
— estimation of, in the blood.....600
— experiments with 753
— formation of in adrenals.....752
— further evidence for reflex and asphyxial secretion of.....133
—— experiments on 459
— glycosuria in frog.....741
— hyperglycemia and hyperglycorachia 106
—— rôle of acid in.....456
—— mechanism of 743
—— the influence of pancreatic infusion and pancreatic juice on 600
— hyperglycosuria, ovary and.....750
— hypersensitiveness and its relation to hyperthyroidism 106
— importance of the method of administration of, in respiratory exchange 88
— in Addison's disease.....323
—— arterial blood 455
—— asphyxia pallida of new-born child 750
—— nephritis 749
—— pregnancy vomiting 106
—— pseudo-paradoxical pupil dilatation 99
—— the Stokes-Adams syndrome...106
—— treatment of the vomiting of pregnancy 327
—— vomiting of pregnancy.....601
—— weak heart action.....458
— infantile tolerance to.....107
— influence of glucose on the effects of, on the heart.....327
——— injection of, on hyperglycemia in dysfunction of the sexual organs 172
——— solar reflex 738
——— on blood sugar.....801
——— heart strips 454
——— hibernation 811
——— metabolism in various excised tissues 457
——— nephritis and its complications by injection into the kidney 101
——— the formation of antibodies 747
——— free sugar content of the liver 739
——— retina 600
——— secretion of gastric juice 335
——— the subarachnoid injection of, on body temperature..597
Adrenin injection, blood picture after 756
—— in cutaneous vasomotor reactions 748
— internal secretion of and its significance in pathology.....745
— intracardial injection of, for acute heart failure 595
— intravenous, cardio-vascular effects of 100
—— infusion of, in collapse.....460
— lactic acid formation after.....459
— liberation of, during muscular exercise 104
——— in traumatic shock..... 93
— limits of exactness of the physiological control method for.....106
— melanins from 459
— method of determination....597, 599
— organic and synthetic, comparison of the atheromatous action of..454
— paradoxical action of, after repeated treatment 108
— passage of into the general circulation from the cerebro-spinal fluid 458
— preparation of 739
— produced by stimulation of the splanchnics 104
— quantitative test for.....327
— racemic and laevo, comparative pressor power of.....458
— reaction, effect of splenectomy on 499
—— of erectile tissue and dorsalis penis artery to.....598
——— human skin capillaries to... 99
— relation of, to blood supply and blood flow in pilocarpine secretion of sweat..... 99
— resemblance of, to a substance from the hypophysis.....356
— respiratory exchange and blood sugar curves after administeration of 776
— role of, in arterial pressure..... 96
——— hypertension 747
——— due to exciting the splanchnic nerve 456
——— hypertensive effects 747
— secretion, influence of endocrine organs on 758
—— of, determination of quantity..758
— sensitizing action of thyroid extract for 509
— spasm and 735
— studies in man, technic of.....459
—— of Graves' syndrome and the involuntary nervous system.457
— sugar output from the liver as affected by 494
— test in a group of normal individuals 328
——— hyperthyroidism 374
——— the diagnosis of hyperthyroidism 199
— the blood picture after injection of, in blood disease.....456
— therapy 602
— treatment of rachitis.....105
— use of in treatment of vertigo....108
— variations of protein sugar after injection of 87
— vascular reaction to, of the portal system of the liver.....107
— vomiting of pregnancy.....100
—— barium, antagonism on the excised surviving intestine.....459

— — on, of injection of extract of anterior lobe of hypophysis..354
— endocrine effect of, after treatment of uterus by x-ray.....158
— etiology and pathogenesis of dysphasia and dysfunction of.....623
— existence of a gland of, homologous to the interstitial gland of the testis.....476
— extirpation, followed by hypertension 162
— — effect of, on isolated uterus....126
— — experimental investigation of.. 41
— — influence of, on spermatozoa...148
— — of 821
— — — for the ocular disturbances of the menopause.....345
— — — in vomiting of pregnancy...477
— fibroma and sarcoma of 481
— -genital cycle in certain hibernating animals 823
— glandular cycle in the epithelium of the oviduct in the dog.....823
— histology of during pregnancy...842
— — — the human corpus luteum of 843
— hormone of; test of; liquor folliculi as source of.....725
— human, as a gland of internal secretion 833
— — lipoids of 626
— — the lipoids in 832
— hyperfunction of, of emotional origin 344
— hypertrophy of fragments of....159
— implantation of into uterus after salpingetomy 835
— — — in uterus 838
— implanted atypical formation of..148
— in a case of hermaphroditism....477
— — Dercum's disease 482
— — experimental diabetes insipidus 181
— — old age.....336
— — psychoses 475
— — pubertas praecox 166
— influence of extracts of, on sterility 165
— — — — — on tuberculosis 503
— — — the internal secretion of, on blood pressure 160
— interpretation of sex heredity in the Gallinae based on the existence of the neuter form and on the properties of the hormone of 836
— interstitial cells of.....621
— — — — of ovary Cheiroptera.....149
— irradiation of: doubts on the law of Bergonié and Tribondeau...483
— mammalian types of.....830
— modifications in, by x-rays.....483
— neoplasm of, of the follicular type 158
— oestrus cycle in oviduct of the sow 839
— of new born 832
— — the rabbit, comparative microchemical researches on the content of the interstitial and of the lutein cells in....681
— optones from, and enzyme action.467
— organotherapy in hemorrhages of 485
— psychosis, treatment of.....202
— regularity of activity of, and white cell picture, during the menstrual cycle 152
— relation between and the ovary..352
— — of dysfunction of, to thyroid and hypophysis 140
— — — to the gravid uterus in the aplacental opossum.....827
— — — — Bidder's organ.....302
— — — — exophthalmos 626
— — — — sexual manifestations....346
— rôle of, in chlorosis.....824
— — — — false pregnancy 349
— — — — hypogenital hand.....481
— — — — menstruation 486
— — — — myomal bleeding.....838
— — — — the endothelial symptom.473
— rhythm of, in the rat on inadequate nutritional regimes.....153
— secretion of, in parabiosis.....826
— solid carcinoma of.....827
— — sarcoma of 345
— — tumors of and pregnancy.....344
— strumous teratoma of.....371
— sympathetic glands in; their relation to the interstitial gland of the testicle.....622
— symptoms of removal of.....151
— syndromes, associated with disorders of 826
— the evolution of the corpus luteum and menstruation.....157
— — influence on the endocrine organs of x-ray treatment of..843
— tissue of, and parathyroid feeding of tadpoles 496
— transplantation and hermaphroditism 164
— — of.....150, 160, 166, 343, 347
— — — fragment of.....822, 835
— transplants in deficient genital function 839
— treatment of hemorrhages of....349
— tumors of 162
— — — recalling a cylindroma.....163
— use of hypophysis extract in affections of 168
— — — preparations of, in sterility..348
— types of, from the physiological point of view.....838
— unusual contents of cysts of.....820
— use of extract of, in organotherapy 807
— x-ray stimulation in hypofunction of 825
Ovulation and blood sugar.....158
— relation of adrenals to..... 94
Ovum, as an organ.....161

—————of, on sugar consumption of isolated rabbit.....114
———intravenous injection of pancreatic perfusates on the D/N ratio following extirpation of 118
———removal of, on heat production in the frog.....358
—————the external secretion of, on the spleen....189
——produced on blood sugar by extracts of 610
—————diabetes by extracts of...762
—extracts, effect of on carbohydrate metabolism 783
——of, in treatment of diabetes mellitus 110
—evolution of the endocrine islands of 494
—function of, during nursing.....862
—in a case of diabetes mellitus with pluriglandular lesions....329
—influence of castration on.....828
———extract of, administered by mouth to depancreatized dogs, on the respiratory metabolism 607
—————upon the carbohydrate metabolism of depancreatized dogs 464
—————without the aid of alkali upon the metabolism of the depancreatized animals....462
———perfusates of on the blood sugar, D:N ratio and respiratory quotient of depancreatized animals.....605
—————upon the carbohydrate metabolism of depancreatized animal.....611
———secretin on 132
—internal function of, in relation to body mass and metabolism....328
——secretion of 785
—islands of Langerhans free in the connective tissue of.....462
—loss and thyroidectomy effect....201
—post-traumatic calcification of, with diabetes 614
—relation between adrenalin and extracts of 98
———and neurosis, heart neurosis, Graves' disease and nervous diarrheas .....,786
—relation of weight of, to weight of adrenal 325
—removal, adrenal after..... 95
——and ligation of thyroid arteries 200
—rôle of, in metabolism of fats....120
Pancreas, rôle of in the relation between the ligature of the ductus thoracicus and the tolerance for carbohydrate 465
—secretion of, spleen and.....189
—syphilis of the.....766
—the anti-diabetic substance generated by.....464
——influence of infusion of, and of juice of, on adrenalin hyperglycemia 600
—use of extract of, in organotherapy 807
Pancreatic diabetes and thyroid and parathyroids 200
—enzymes as activator of muscle enzymes 788
—extract, action in diabetes.....761
——action of 768
——and diabetes.....776
——in diabetes 789
———treatment of diabetes.....519
—hormone and diabetes 785
Paraf: cf. Nobecourt.....784
Paralysis agitans with excessive output in urine; parathyroid treatment in 198
Parasympathetics, antagonistic action of methylene blue to excitants of 461
Parathyroids 184
—accessory, their relation to survival of animals after parathyroidectomy 720
—action of blood serum of tetanic animals on motor nerve and muscle 866
—after removal of refractive index and water content of blood serum 645
—and muscle extracts.....645
——pancreatic diabetes 200
——thyroid deficiency as cause of epilepsy 184
———extracts, use of, in treatment of goiter 509
——thyroid in animals living in light or in darkness.....642
—biology of 132
—changes in after pancreatectomy..175
—cytology of 184
—deficiency and its treatment.....187
—effect of loss of, on body length, body weight and tail length of rats 884
———removal of, on consolidation of fractures 144
—extract in treatment of goiter...509
—factor in tetania gravidarum.....639
—feeding, influence of, on tadpoles.496
—function, correlation of, and intestinal secretion 862
——of 140, 865
—glands, effect of partial and total extirpation of, upon blood enzymes 894
——of cattle, elementary chemical study of.....865

— — — horse, tumors of the interstitial gland of.....836
— opotherapeutics 626
— origin and histogenesis of epithelioma of, in man.....482
— — of luteal cells of.....481
— psychology after removal of.....827
— quantitative relation between interstitial tissue, seminal tissue and mass of the body in birds and mammals 820
— — variations in interstitial tissue of birds with periodic sexual activity 628
— relation between and blood pressure 350
— — of internal secretion of, to the secretion of the seminal vesicles 150
— — — to Bidder's organ.....302
— — — — hypophysis 227
— — — — sexual manifestations ...346
— — — weight of, to weight of adrenal 325
— results of ligation on, with special reference to the question of the puberty gland.....840
— seasonal changes of, in top minnow 344
Testes, structure of in chimpanzees, and results of grafting.....627
— sufficient quantity of, for masculinization 160
— the nervous system and the internal secretion of.....839
— thyroid and tonsils, lymphosarcoma of 905
— tissue of, and parathyroid feeding of tadpoles 496
— torsion of, in a pseudohermaphrodite 837
— transplantation of .....
.....276, 342, 483, 630, 821
— — present status of.....445
— transverse displacement of, with pseudo-hermaphroditismus masculinus internus 482
— underdeveloped, and eunuchoidism in rabbits.....346
— use of extract of, in organotherapy 807
— weight changes of, in old age....336
— — of, in experimental rickets....617
Testicle, accessory, interstitial-like element in 829
— after ligation 478
— agenesis and hypophysis hypofunction 171
— and pituitary, use of extracts of, with calcium in treatment of ovarian hemorrhages 349
— effect of ablation of, in the toad..157
— — — extract of, on ocular tension 162
— — — injecting extracts of, into the lateral ventricles.....130
— endocrine function of..... 1
— — tissue in urodele.....126
— experiments, the clinical importance of 623
— extract, influence of, on life of spermatozoa 148
— function of the interstitial cells of 483
— grafts 841
— implants 480
— interstitial cells of.....166
— — — — and the secondary sex characteristics in the fish 823
— of urodeles, morphological significance of the endocrine tissue of 621
— optones from, and enzyme action.467
— rôle of the interstitial gland of..821
— rudimentary, androgynous pseudo-hermaphroditism with an intra abdominal tumor following removal of 150
— "sexuallipoid" in 155
— swelling on one side only, with traumatic neurosis 503
— sympathic glands in; their relation to the interstitial gland of.622
— transplantation 160
— — and hermaphroditism 164
— — clinical and experimental studies on 827
— — report of cases,—end results..834
— undescended, histological study of, in the horse.....343
Testicular-adrenal interpenetration in cocks incompletely castrated..837
Tetany, a report of cases with acid-base disturbance 185
— accompanying familial angioneurotic edema 194
— and epilepsy 184
— — parathyroids 186
— case of: parathyroid origin of...184

Tetany, diffusible calcium in blood serum 360
— habitual vomiting and.....188
— in the adult with special reference to alkalosis and calcium metabolism 866
— influence of meat diet on.....497
— parathyroid and guanidin, comparison of 187
— — ion balance in.....186
— pathology of.....188, 359
— postoperative, and pregnancy....497
— — with epilepsy 864
— production of, in rats by thyorid feeding 196
— — — acids and bases and, with special observations of the rôle of the PO_4 ion.....495
— — — and the chemical processes in the body.....496
— sodium ion in.....189
— the calcium in the blood in health and 863
— water and salt metabolism in....863
